

## **She Loves Him Still**

Larissa Lam

### Verse 1:

A moment flashed  
The days would pass  
Lying there surrounded by all who care  
She hears a song  
Her heart beats on  
No taste in her mouth, she wants to cry out

### Chorus:

She loves him  
She loves him still  
With every last breath  
After all these years  
  
She loves him  
She loves him still  
Even out of her sight  
She knows He's here

### Verse 2:

She rests her head  
Words can't be said  
Wanting of course all that she had before  
The feeling's gone  
She's holding on  
Wondering when, when will it end?

### Bridge:

Life goes on and on, but her spirit's strong  
Life goes on and on, it won't be long---
