

More than a Lifetime by Larissa Lam

Verse 1:

You're more than just a fairy tale
More than heaven sent
More than swept me off my feet
You're more than my best friend
And there you are in front of me,
Exactly where I want to be

Chorus:

If I could stay here in your arms, then a lifetime wouldn't be enough
To share in every hope, every tear and every hour with you
I want more than a lifetime of your love

Verse 2:

You're more than sunshine in my life
More than a fantasy
More than a classic movie scene
More than a gift to me
I'd travel to the furthest place
To see that smile upon your face

Chorus:

If I could stay here in your arms, then a lifetime wouldn't be enough
To share in every hope, every tear and every hour with you
I want more than a lifetime, more than a lifetime

To share in every hope, every tear and every hour with you
I want more than a lifetime
More than a lifetime
Of your love
